Welcome To Christian Day

As the UK's leading manufacturers of GRP plant containers, Christian Day Ltd can draw upon over 30 years' experience of producing plant containers, which are the industry's benchmark for quality.

We are proud of the service we offer to the interior landscaping industry. As you will see from our extensive brochure, we have over the years built up a comprehensive range of not only GRP planters but timber, metal and plastic planters, which are all now available from one source.

All GRP planters have in addition an internal waterproof sealing coat to guarantee 100% watertightness.

A special service is available for producing bespoke planters to our customers' requirements.

We can also offer an on-site lining service to suit your requirements i.e. pools, brick planters and atriums etc.

Mona Irrigation

Mona is a recognised method of watering interior or exterior planters, as it works as nature intended by capillary action. Mona tanks are available for the majority of our planters.

Delivery

Delivery is by our own transport or by carrier. All deliveries will be charged at £25 per consignment for England and Wales; £35 per consignment for Scotland. Ireland is by quotation only. Pallet loads are charged at £48. Any planters delivered by carrier must be checked for damage before they are signed for.

Terms and Conditions

Prices quoted in the price list are exclusive of VAT. All GRP containers, unless specifically advised, are available in any BS5252 or RAL colour ranges.

Modular Limestone Planters

Limestone planters are fully water-tight and produced to a high standard within a wall thickness of 6-10mm. A special Limestone Gel Coat has been developed to give the planters the look, feel and texture of the genuine article. All planters can be bolted together to create your own design. Below is the standard range of Modular Limestone Planters currently available. Due to the unique way of moulding limestone, bespoke sizes can be easily acheived with only a small increase on cost, please call 01562 515 579 for a quotation.

Railing Planters with Brackets

Bespoke sizes can easily be made to order without any additional moulding costs. Planters can be manufactured in Gloss, Textured or Matt finish in any BS or RAL colour. Heavy duty brackets are made to order as railing do vary in size and have a black powder coat finish. Planters can be bolted to the brackets if required. Drainage holes are normally put in the end panels 50mm up from the base.

Standard Sizes

Model Ref Number	Metric Size (mm)
RP 100	1000 x 250 x 250
RP 120	1200 x 250 x 250
RP 150	1500 x 250 x 250

Bracketed Wall Trough

Substantial metal pre-drilled brackets are supplied with the “Bracketed Wall Trough” planter. The brackets locate to the rear and underside of the planters, allowing a neat fit to be achieved.

If extra security is required, the Bracketed Wall Troughs can be secured to brackets by bolting through the base of the planter and then through the bracket.

Standard Sizes

Model Ref Number	Metric Size (mm)
BWT 80-25	800 x 250 x 250

BWT 120-25	1200 x 250 x 250

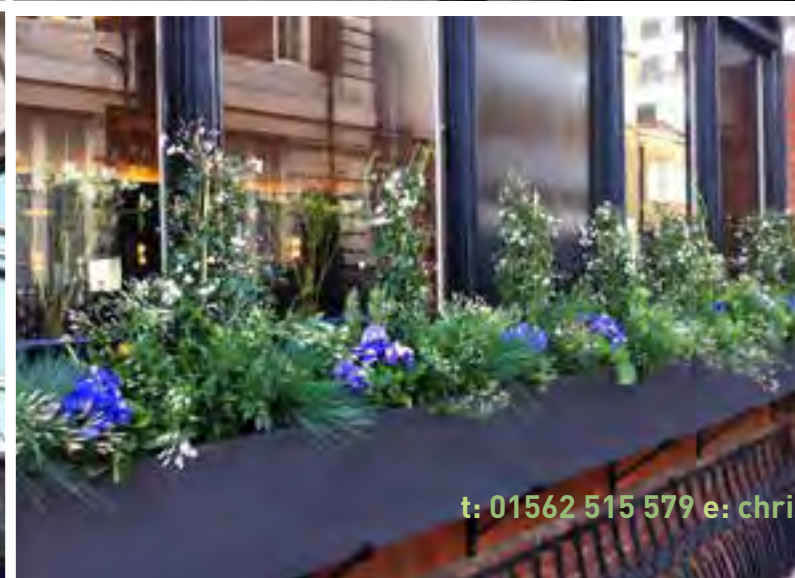

Bespoke Window Boxes

Window box planters can be manufactured to virtually fit any space in a variety of different styles and finishes, whether it be a curved, sloping or just a straight run of planters.

They can be manufactured in Gloss, matt or one of our own decorative or textured finishes.

Please call our sales office or send an email for a quotation.

Barrier Screen Troughs

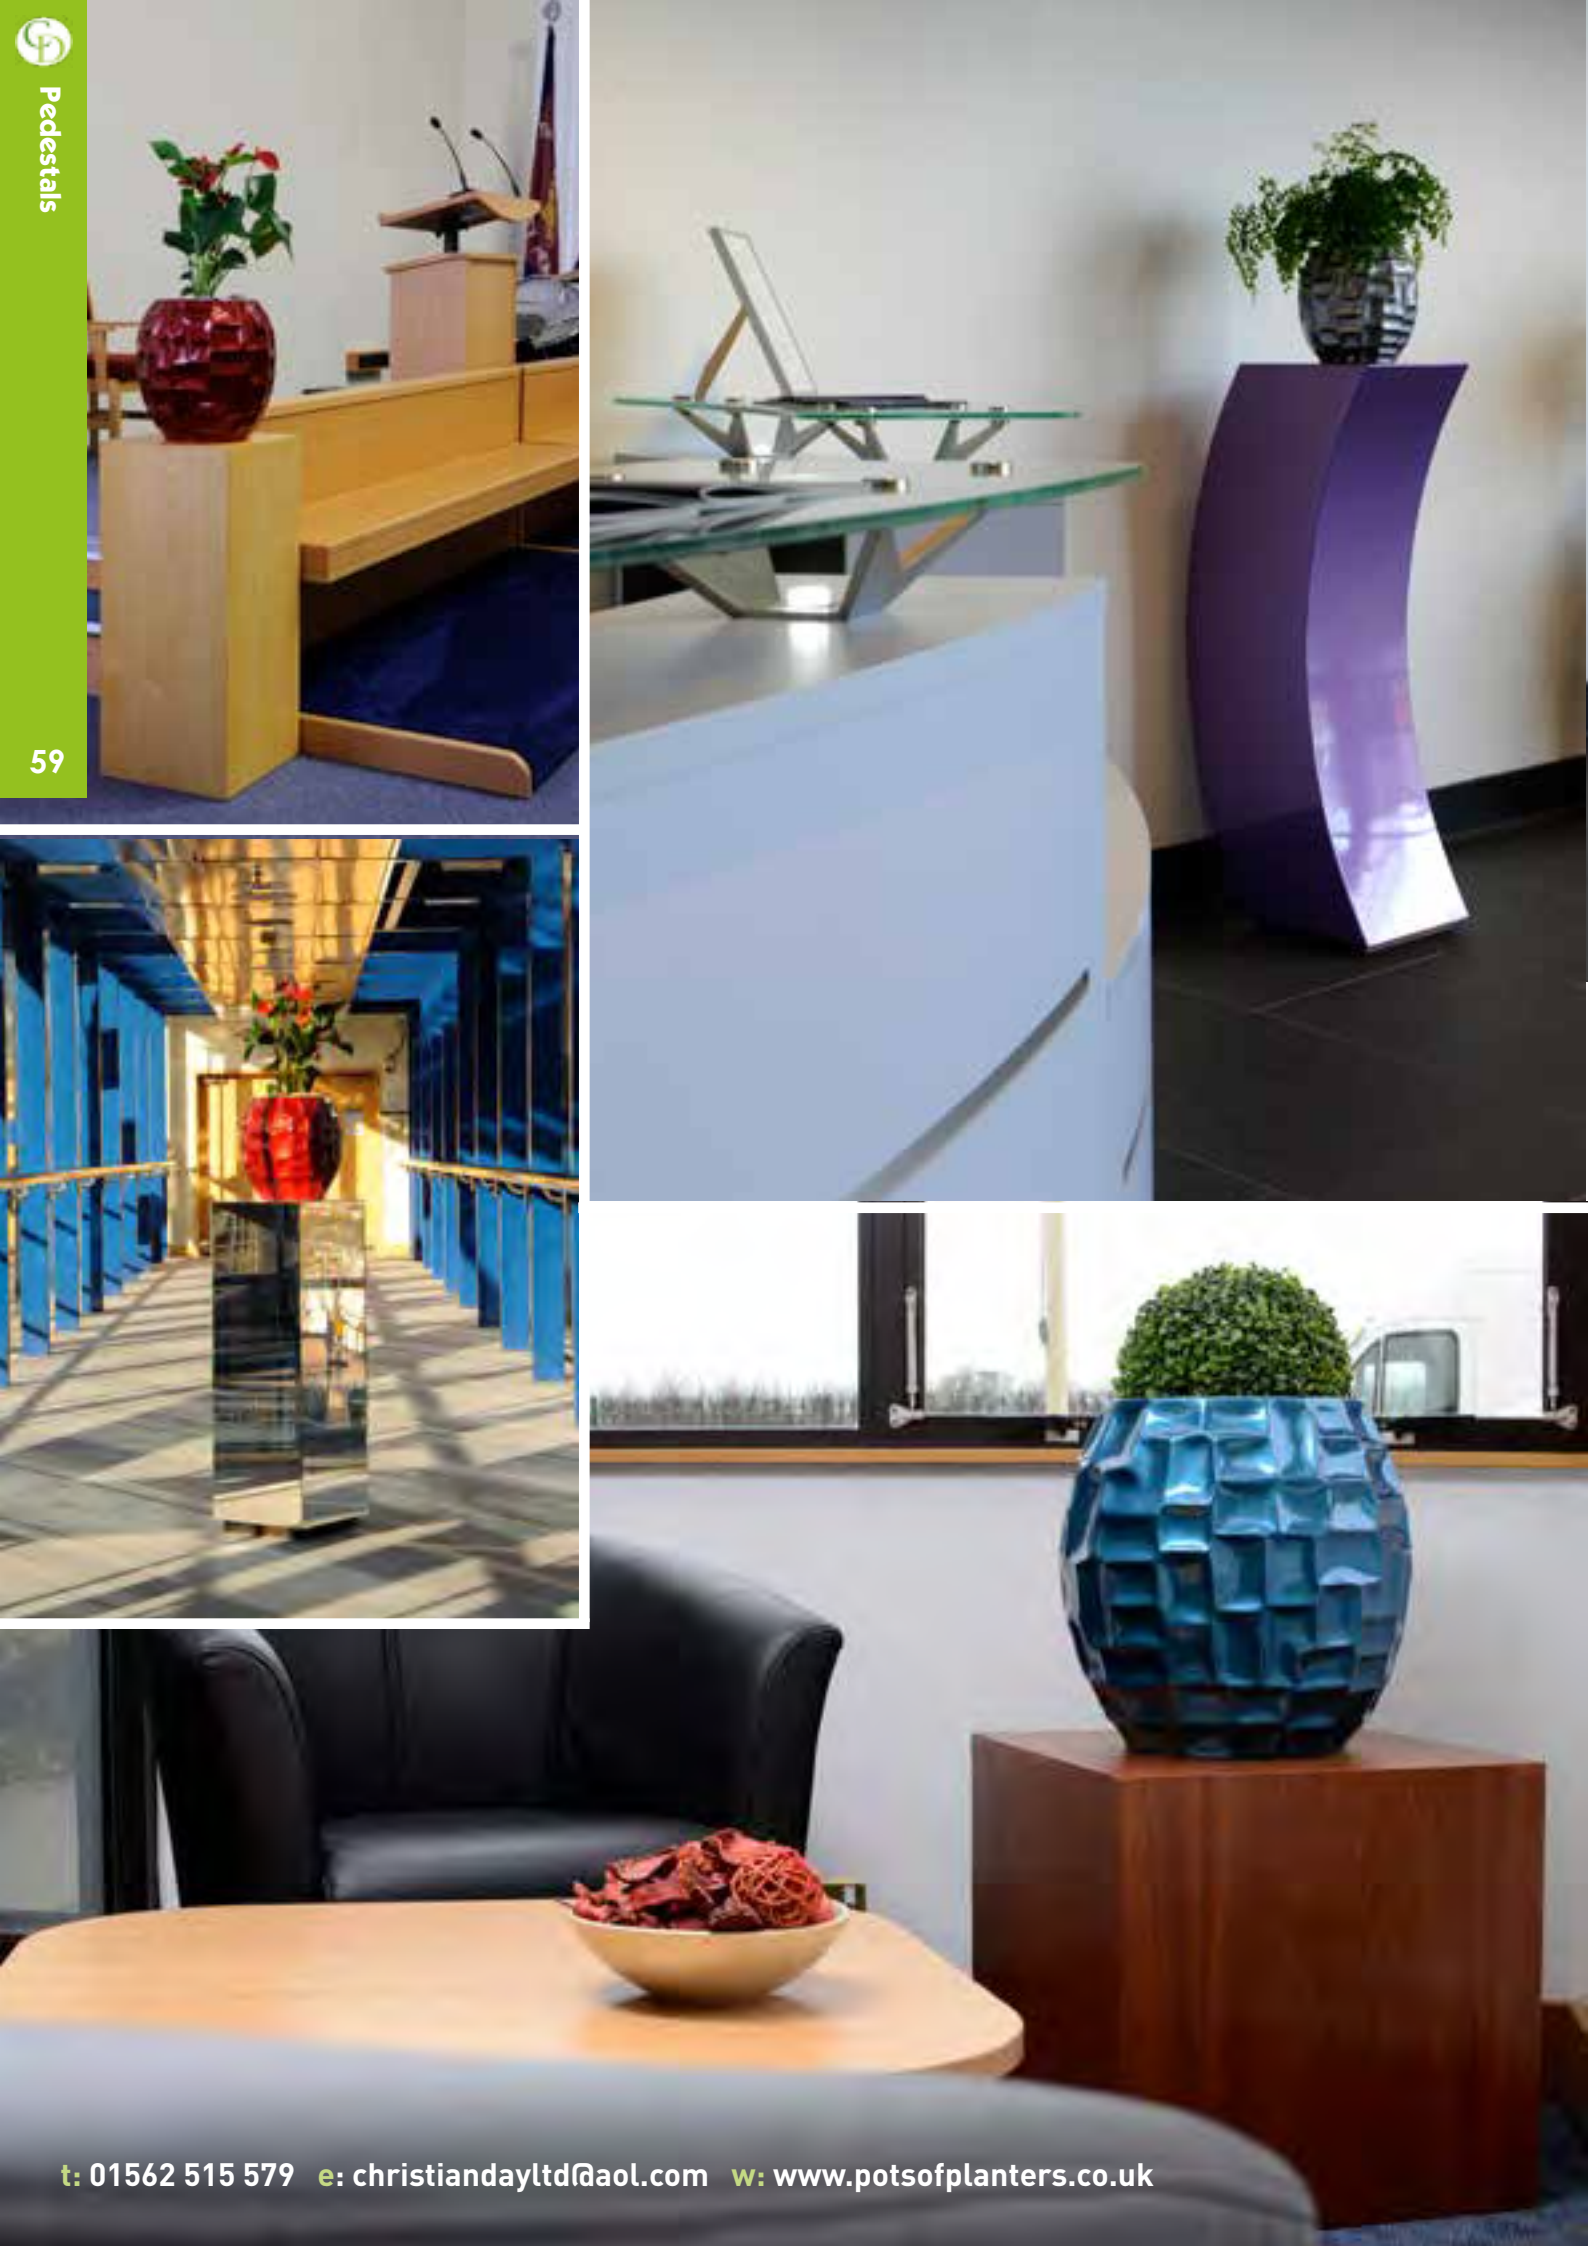

Barrier screen troughs come with posts which can either be fitted in the back or the centre of the planter. The height of the posts can vary according to planting needs. The internal distance between the posts is 1350 mm this is the correct size for a Mobilane Ivy Screen with brackets. Drainage pipes can be fitted if required. Barrier screen troughs are available in any BS or Ral colour or decorative finish

Cor-Ten Steel Planters

Corten planters naturally develop a variable patina of rust which acts as the perfect foil for all manner of planting schemes, both naturalistic and architectural.

Corten steel planters are also extremely long lasting, and require no maintenance. Corten steel contains alloys that cause its surface to develop a self-protecting rust when exposed to weather; and this protective surface layer will repair itself immediately if damaged mechanically .

It can take 3 to 9 months for a Christian Day Corten planter to fully develop its characteristic and protective patina. Some run off is to be expected during this time, and adjacent porous materials (such as stone or concrete) may need to be protected from staining. Once the patina is fully-matured, it can be sealed with a varnish if required.

We can supply GRP trays which does help to reduce any staining and any bespoke size can be manufactured , please call or email your requirements for a quotation.

Drainage holes can be drilled if required and all our metal planters come with a Bitumen covering to all interior faces alternatively GRP liner can be fitted if required .

All our Cor-Ten planters can be laser cut and a coloured backing plate of your choice can be applied to the interior to high light any Logos etc.

Drainage holes can be drilled if required and all our metal planters come with a Bitumen covering to all interior faces alternatively GRP liner can be fitted if required .

All our Cor-Ten planters can be laser cut and a coloured backing plate of your choice can be applied to the interior to high light any Logos etc.

Price per letter £6.00

Modernique Planters

Modernique planters are manufactured from either **Brushed Stainless Steel** or **Powder Coated Zintec**. All planters come with an interior fitted backing plate to cover the laser cut holes. These can be powder coated in any BS or Ral colour in **Gloss, Satin or Matt**

Planters can be manufactured in the 4 designs shown

- Large square detail
- Small square detail
- Round holes
- Random rectangular slots

Finishes

- Brushed Stainless steel planter with powder coated interior plates
- Power coated planter with powder coated interior plates, two colour
- Powder coated planter with stainless steel interior plates
- All holes will be in proportion to the size of container ordered or we can do bespoke sized holes if required

All planters come with the interior surfaces seal with Bitumen, or a GRP liner can be fitted at extra cost.

Stainless Steel Mesh Planters

Mesh planters are ideal for locations where they need to be moved around on a regular basis due to them being light weight

- Mesh planters are manufactured from 5 mm stainless steel mesh with 50 mm square holes.
- Planting tray is 200 mm deep and is fitted in the top and can be powder coated if required.
- Casters can be fitted if required.
- Bespoke sizes can be manufactured, please call for a quotation.

Concretia Seating Planters

The Faux Concretia planters are manufactured from GRP using our own mix of aggregate particles to create the concrete look. Seating has been developed to complement the planter range using Iroko as the slats for longevity and stainless steel fixing. We can also use RAL or BS colours if preferred in Gloss or a Matt finish. Bespoke sizes are available upon request, please call 01562 515579 and we'll provide you with a tailored quote.

Designer Planters

The Designer Planter range is a lightweight planter manufactured from aluminium, spun aluminium or hand fabricated. All planters are fully water-tight and come with a tough clear powder coat finish to protect them from scratching or scuffing. Planters can be used either indoors or outside if drainage holes are drilled in the base.

UCT 150	1500 x 650 x 650	60 x 25 x 25

Stainless Steel Planters

Stainless Steel Planters are available in brushed or mirror polished finishes and are manufactured from 1-6mm thick steel. All planters have a rolled top and are fully water-tight. Stainless steel needs maintenance, but all that may be required is a wipe over with a mild glass cleaner using a soft cloth to remove finger marks. Bespoke containers can be manufactured on request, please phone our sales office on 01562 515 579.

Our standard range of containers is manufactured from 304 grade steel. Please phone for a quotation if 316 is required.

Please note: when planting Stainless Steel Planters, avoid using compost or soil mediums that contain potash or phosphagen as this can cause damage to the stainless steel.

If you need to use the above we can put in a GRP liner which will protect your planter.

Wharf Planters

Wharf planters are manufactured from 45mm thick Iroko Hard Wood, 5mm Stainless Steel and 5mm Galvanised Metal are used making them very durable with a long life. The metal frame work can be powder coated if needed to any BS 5252 or Ral colour.

The Iroko hardwood comes with an oiled finish as standard and will weather naturally to a grey silver if not re-applied every couple of years.

Other stains, varnishes or paints can be applied if preferred.

Planters come with an internal fitted GRP liner and can be moved by means of pallet truck or fork lift.

Adjustable feet are fitted as standard to over come the problem of uneven surfaces.

The wharf planter can have seating added to the larger sizes either 1, 2, 3 or 4 seat benches can be fitted.

Bespoke sizes can be manufactured, please call 01562 515 579 or email christiandayltd@aol.com

Timber Planters

All our Timber planters are available in any Ral or BS colour . Also on page 79 are the most popular wood stain and garden shade colours. All timber used in the manufacture of the planters is from FSC registered mills and can be manufactured in hard or soft woods. All joints are mortise and tenon with tong and groove which are all glued and pinned . Bespoke sizes can easily be produced with no additional set up costs.

Soft wood planters will only be painted with water based products due to the natural movement in timber.

Hard wood planters can be painted with any timber paint system.

Balmoral

The Balmoral range of planters have been developed to enhance any environment with its unique method of manufacture. This planter can be made in the following wood veneers Steamed Beech, Oak, Maple, Red Oak, Ash, Cherry, Sapele and Pine.

All planters come fully lined with GRP. The larger planters can be built with hidden fork lift access if required. This is achieved by a removable front kick plate to one side of the planter, prices on application. Brushed stainless steel can also be incorporated into the planter by means of a kick plate or top lip.

Planters can come with either matt, satin or high gloss varnish finishes.

Planters can be manufactured for use outside, please allow an additional 15% on cost for this.

Stainless steel protective corners can also be fitted please allow an additional 5% on cost for this.

Any bespoke size can also be manufactured, please call 01562 515 579 for a quotation or send an email to christiandayltd@aol.com

Windsor Timber Planters

Windsor timber planters are only manufactured from either Iroko or Idigbo hard wood . Iroko can be left natural or oiled if required as this will naturally weather down to a silver grey in time . Idigbo will need a stain or paint finish to maximise the planters life. All windsor planters come fully lined with GRP and a drainage pipe can be fitted if required

All joints are mortise and tenon with tong and groove which are all pinned and glued

Bespoke sizes can be manufactured please phone 01562 515 579 or email christiandayltd@aol.com

Bespoke Planters

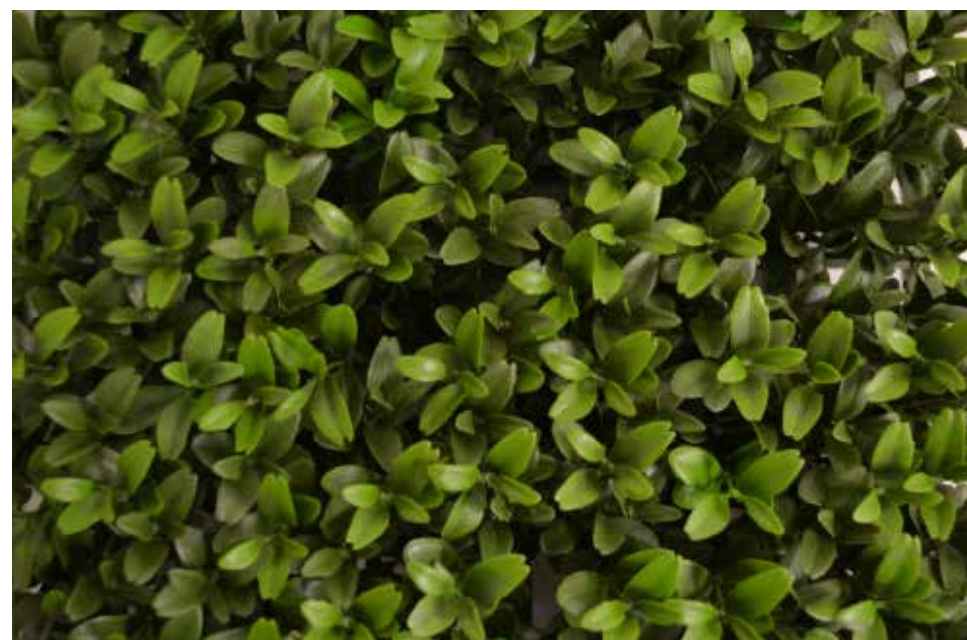

With the growing demand by architects for more innovative and unique planters, Christian Day can now offer the landscaper a bespoke service second to none. Planters can be manufactured from Galvanised Metal, Stainless Steel and lightweight Aluminium. Planters can be made to your exact specifications with very few restrictions on design. Due to the method of manufacture of complex shapes, all planters need to be powder coated to any BS5252 or Ral Colour.

Please submit drawing with sizes for quotation.

Liners

Liners can be manufactured to almost any shape and size. Unless specified they are manufactured in dark brown (BS 5252 colour 08 B 29). The standard lay-up allows for some rigidity to come from the material to be lined.

Additional strength can be achieved by an increase of wall thickness or the inclusion of internal stiffening ridges to enable the liner to be self-supporting.

Large liners can be manufactured incorporating internal metal frames with lifting hooks, enabling the display to be pre-planted and changed to suit seasonal changes or to replace vandalised displays.

We are able to carry out an on-site service of liner or tree-pit, manufacture where sheer size or shape requires.

GRP Lining

We are able to offer a service for the lining of clients' own containers, such as wooden Versailles planters or terracotta planters that need to be waterproofed.

Plastic Inserts

New cost-effective innovation for lining those awkward planters. Purpose-made polypropylene liners which fit most sizes of ceramic or terracotta. Or even just drop them in GRP container. No mess, no fuss, easily removed from container leaving it clean for use another day. Plastic inserts are water-tight, very tough and robust but easily trimmed with scissors or a stanley knife for a tight fit. Ideal for use with tall planters i.e. Bajazi and Grandeur.

Irrigation System

Mona Tanks and Mona Link Irrigation Systems

- Various water reservoirs ranging from 0.9 litre to 17.5 litres.
- Connected water reservoirs irrigate every size of planters.
- The solution for differing planter depths and shallow planting.
- Capillary irrigation to the root gives an even watering and an increased oxygenation.
- No moving parts. No technical overhaul. No pressure and controlled water supply.

Terms and Conditions

All goods supplied by Christian Day Limited ("the company") are sold subject to the following terms and conditions.

1. General

Any variations of these terms and conditions in any document of the customer is inapplicable unless accepted in writing by the company.

2. Prices

The company reserves the right to alter prices without prior notice. All prices quoted are subject to V.A.T.

3. Colours

Where goods ordered are in colours the customer must specify from BS.5252 colour range or such approved range.

4. Delivery and Consequential Damage

While the Company will do its utmost to adhere to any time stated for delivery, it shall not be liable for any loss or damage howsoever caused by and delay in delivery, completion, or performance of any contract, and any time stated for delivery shall not be a term of contract or a representation. In event of the Company being unable to supply or deliver goods ordered, it undertakes to refund any money paid in respect of such goods, but shall not otherwise be under any liability whatsoever. The Company shall not in any event be liable for consequential damage or loss.

5. Ownership and Risk

No general property or equitable interest in goods supplied by the Company to the customer (hereinafter called "the contract goods") shall pass to the customer until such time (hereinafter called "the specified time") as the price of the contract goods and all other (if any) due from the customer to the Company in respect of the contract goods or under any other contract between the Company and the customer shall have been paid to the Company in full. (ii) Until the specified time the customer shall be only a bailee of the contract goods for the Company.

6. Discounts

Where quantity discounts have been agreed in writing by the Company any such discount is granted on the basis that payment is received within the Company's specified time of 30 days from the date of the invoice. Failure to comply with the Company's credit terms may make the said discount null and void and may necessitate a further invoice.

7. Goods in Transit

Although the Company shall not be liable for any damage or loss caused by, or occurring during transit of goods from the Company's premises, it will endeavour to seek recovery from its carriers the amount of any damage or loss aforesaid, but only if notification of such is given by the customer to the Company in writing within 3 days of the same having been sustained.

8. Terms of Payment

Unless alternative Terms of Payment are agreed in writing the customer shall make payments at the Company's premises on the 30th day following date of invoice.

9. Use of Goods

The customer must satisfy himself that any goods ordered by him are suitable for his purposes. The Company hereby gives notice that none of its officers or employees are authorised to advise or recommend the suitability or otherwise of any product or products, and will not accept responsibility for any damage or loss directly or indirectly arising as a result of any incorrect or inadequate advice or recommendation.

10. Bankruptcy, Etc., of Customer

In the event of any distress or execution being levied against the customer, or in the event of any bankruptcy or any arrangement or composition with creditors or any offer by the customer to make such arrangement or composition, or in the event of any resolution or petition of the winding up of the customer or the appointment of a Receiver in respect of the customer's business or the equivalent of any of the above, the Company shall at its option be entitled to determine forthwith any contract under which the company shall not by then have wholly performed its obligations, but without prejudice to the right of the Company to be paid for any orders in part fulfilled by the Company under such contract prior to such determination.

11. Return of Goods

No goods will be accepted by the Company for Credit, replacement or repair unless previously agreed in writing. Invoice numbers must be quoted when returning goods. The Company reserves the right to levy a handling charge in respect of returned goods.

12. Warranties

Subject to the appropriate statutory limitations, no condition is made or to be implied, nor is any warranty given or to be implied, as to the quality, life wear or suitability of any such goods supplied by the Company.

13. Law of Contract

Any contract entered into by the Company shall be governed by English Law and shall be subject to the exclusive jurisdiction of the English Courts.
